

Export up to and including August 2026 (all passenger cars from build year 2016 onwards)

Exports of passenger cars up to 10 years old have fallen this month compared with July this year, but also compared with August in the past two years. Year to date, exports remain approximately 7.5% lower than in 2025. In August 2026, approximately 1,600 electric passenger cars left the country, in August 2025 the figure was around 2,250.
